

ICM 2026 KUCHING – SARAWAK

INTERNATIONAL CONFERENCE ON MICROELECTRONICS

CALL FOR LIVE DEMONSTRATIONS

INTERNATIONAL CONFERENCE ON MICROELECTRONICS

The 38th IEEE International Conference on Microelectronics (ICM 2026) invites proposals for **Live Demonstrations** to be held during the conference at the Borneo Cultures Museum, Kuching, Sarawak, Malaysia, from 7th to 10th of December, 2026.

The live demonstrations will be conducted in presentation booths to **showcase a working system**. The demonstrations can be an interactive software on a laptop and/or a hardware setup. Conference attendees are invited to experience the demonstrations directly, to interact with and challenge them. The Committee will recognize one demonstration as the recipient of the ICM 2026 Best Live Demonstration Award.

One-Page Demo Description

Authors are invited to submit a one-page demo description through the online EDAS paper submission system, using the same page formatting as for regular ICM papers. The one-page demo description needs to be based on either an already published paper as a demo for the first time or a new paper submitted to ICM 2026. During submission of the one-page demo description, authors should select "Live Demonstrations" as the Primary Track and an appropriate topical subtrack as the Secondary Track. The one-page live demonstration submission must contain the following information:

1. Demonstration Title and Reference:

- The demonstration title must begin with "**Live Demonstration:**". If the one-page demo description is based on an already published paper, include at least one reference to your published paper about the scientific background of your live demonstration. The reference must be easily accessible for the reviewers, a URL is highly recommended! If the one page demo description is based on new paper submitted to ICM 2026, please include the submission ID of your ICM paper in the demo description.

2. Demonstration Setup:

- Describe the equipment you will bring to ICM 2026. Include a photograph and/or screenshot. Only a power plug, a table and display stand will be provided. Demonstrators are responsible for the transportation of their own equipment to the meeting site. Indicate any special requirements such as extra space for demonstrating robotic movement or other requirements which the organizers should be aware of.

3. Visitor Experience:

- Explain the way in which a visitor experiences and interacts with your demonstration, how it reveals the essence of your work, furthers understanding, and what the visitor will learn.

4. Optional Video:

- For the initial submission only, authors can also include an optional link to a video (max 5min) about their demo. This video is only meant to facilitate the review process, and **does not substitute for the Live Demo!**

Strict no-show policy: Any accepted live demonstration is required to be presented as such at the conference. No-shows will not result in an IEEE Xplore publication.

Important Dates

Deadline for Live Demonstrations Submission	Aug 1, 2026
Notification of Acceptance	Sept 30, 2026

Conference Date :
7-10 December 2026

Borneo Cultures Museum,
Sarawak, Malaysia

Live Demonstrations Co-Chairs:

Norhayati Sabani
Universiti Malaysia Perlis
